Vignette Dynamic Portal Module 2.0.7 Foundation Course

Overview

The **Vignette Dynamic Portal Module 2.0.7** is a component that integrates **Vignette Content Management** with **Vignette Portal**. This module facilitates granular control to define content targeting, personalization and caching managed within Vignette Content Management and for content delivered through the Vignette Portal.

The **Vignette Dynamic Portal Module 2.0.7 Foundation Course** builds on your existing knowledge of Vignette Content Management and Vignette Portal. In this course you will learn to create dynamic, personalized, content-driven Web solutions utilizing the functionality provided by the Vignette Dynamic Portal Module.

This course includes hands-on lab exercises to reinforce learning.

Topics Covered

At the end of this course, you will be able to:

- Identify the key **features** of the Vignette Dynamic Portal Module
- Define key **terms** and **concepts** associated with the Dynamic Portal Module
- Manage and create **sites, channels, pages, portlets, navigation items, templates, and content component types**
- Describe the Dynamic Portal content and asset **deployment processes**
- Define key **architecture components** of the Dynamic Portal Module
- Define and modify the Dynamic Portal Module **caching** mechanism
- **Customize** and extend the Dynamic Portal Module
 - Create custom **renderers**
 - Create **Display Views**
 - Modify custom **grids** and **styles**
 - Implement a **RequestContextModifier**
 - Build custom **content component types**
 - Manage content from a Channel Page using **copy** and **paste** features

Who Should Attend

This course is intended for:

- Individuals who need to learn the new features and functionality provided by the **Vignette Dynamic Portal Module 2.0.7**
- **Site developers** and **site administrators** who focus on creating the application framework for content-driven websites
- **System administrators, network administrators, and IT professionals** who need to deploy, implement, and manage content-driven websites

Prerequisites

- Attendance in a **Vignette Portal course** or advanced knowledge of the Vignette Portal Administration Consoles
- Attendance in a **Vignette Content Management course** or advanced knowledge of the Vignette Content Management Consoles
- Knowledge of **Content Delivery Applications**
- Familiarity with building and deploying **JSP** and **Servlet-based web applications** is recommended
